

This notebook contains Weather data for four cities: Chicago (ORD), Denver (DEN), Newark (EWR), and Washington (IAD)

```
from google.colab import drive
drive.mount('/content/drive')

Drive already mounted at /content/drive; to attempt to forcibly remount, call drive.mount("/content/drive", force_remount=True).
```

```
import necessary libraries
```

```
import pandas as pd
```

```
Read all the csv files into dataframe
```

FOR WASHINGTON

```
d1=pd.read_csv('/content/drive/MyDrive/ML Project/washington.csv')
```

d1
